

## Polymer Coating

### PD 5100 NW

#### Protective Silicone Insulator Paste - White

##### Description

PD 5100 NW is a white, one-component screen printable paste, based on a silicone resin. It is designed for use as a coating for mechanical circuit protection.

##### Key Benefits

- This material, when properly cured, yields a chemically inert film, which will not react with circuit components.
- The cured film exhibits outstanding resistance to solvent attacks and shows a good thermal stability.
- Free of lead, cadmium and nickel
- Free of phthalate
- REACH<sup>2</sup> and RoHS<sup>3</sup> compliant

##### Processing

1. Spatulate well prior to processing. When stored in a fridge: The paste should have acquired room temperature before being opened, to avoid condensation.
2. Print through a 200 mesh stainless steel screen. Total thickness: 90 – 110 µm.
3. Level at room temperature for 5 – 10 minutes.
4. Curing: alternatively process
  - a) 200 °C for 2 hours in a conventional box oven
  - b) IR curing 280 °C (peak) for 20 minutes.
5. Cleaning (wet paste): with Zestron ES 200

##### Important:

Check compatibility with the screen, the emulsion and with the screen frame adhesive before use.

##### Thinner

HVS 100, HVS 252

##### Typical Properties (Paste)

Form:	Thixotropic paste
Viscosity:	50 – 70 Pas (25°C, D = 100 s <sup>-1</sup> )
Shelf Life:	6 months from date of shipment with correct storage (in a dry, cool (5 to 23 °C) and dark place with container tightly shut). Avoid exposure to sunlight and high humidity.

##### Typical Properties (Cured)<sup>1</sup>

Thickness:	c. 30µm
Color:	White
	Other colors available as below:
	PD 5100 NBU: blue
	PD 5100 NG: green
	PD 5100 NRB: royal (dark) blue

##### Note:

PD 5100 NW is not a protection to avoid Ag migration, if applied directly on Ag conductor lines.

## Polymer Coating

### PD 5100 NW

#### Protective Silicone Insulator Paste - White

- 1 Typical properties based on laboratory test methods. Optimal curing conditions depend on requirements of the cured film thickness.
- 2 REACH compliant according to the Annex XIV (Feb. 17, 2011) of Commission Regulation (EU) No 143/2011 to Regulation (EC) No 1907/2006 of the European Parliament and of the council on the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH") by European Chemicals Agency; the above mentioned product does not contain any substance listed in the Annex XIV.
- 3 RoHS compliant according to Directives (European Union) No 2011/65/EC of Restriction of Hazardous Substances ("RoHS") and its subsequent amendments (including the exceptions No. 7. c. 1. of the EU Directive e.g. related to Pb)
